**Demonstration of Complying with Applicable Service Quality Standards and
Consumer Protection Rules For Voice and Broadband**

In establishing this certification in its *2005 ETC Order*,¹ the FCC found that an ETC must make “a specific commitment to objective measures to protect consumers.”² The FCC found that for wireless ETCs, compliance with CTIA’s Consumer Code for Wireless Service would satisfy this requirement” and that the sufficiency of other commitments would be considered on a case-by-case basis.³ In this context, the FCC stated, “to the extent a wireline or wireless ETC applicant is subject to consumer protection obligations under state law, compliance with such laws may meet our requirement.”⁴

Chickamauga Telephone Corporation (“Company”) hereby certifies that it is in compliance with applicable service quality standards and consumer protection rules. Company is subject to consumer protection obligations under Georgia state law. These obligations include, but are not limited to, the following: (1) filing a Local Exchange Tariff pursuant to the requirements of the Rules of the Georgia Public Service Commission which discloses rates, and terms and conditions of service to customers (Chapter 515-12-1-.02(5)(a) and .04(5) of the Rules of the Georgia Public Service Commission); (2) adherence to state consumer protection requirements governing telephone providers which require Service Standards (Chapter 515-12-1-.17 and .18 of the Rules of the Georgia Public Service Commission); Customer Billing (Chapter 515-12-1-.04(4) of the

³ *Id.* The FCC noted that under the CTIA Consumer Code, wireless carriers agree to: “(1) disclose rates and terms of service to customers; (2) make available maps showing where service is generally available; (3) provide contract terms to customers and confirm changes in service; (4) allow a trial period for new service; (5) provide specific disclosures in advertising; (6) separately identify carrier charges from taxes on billing statements; (7) provide customers the right to terminate service for changes to contract terms; (8) provide ready access to customer service; (9) promptly respond to consumer inquiries and complaints received from government agencies; and (10) abide by policies for protection of consumer privacy.” *Id.* at n. 71.

Rules of the Georgia Public Service; and Customer Complaints (Chapter 515-12-1-.08 of the Rules of the Georgia Public Service Commission); (3) truth-in-billing requirements (Chapter 515-12-1-.04(4) of the Rules of the Georgia Public Service Commission); and (4) CPNI, Red Flag Rules and other applicable federal and state requirements governing the protection of customers' privacy.

Company is subject to consumer protection obligations for broadband services under federal law. These obligations include, but are not limited to, the following: public disclosure of accurate information regarding network management practices, performance, and commercial terms of broadband internet access services; as a means of providing sufficient information for consumers to make informed choices regarding use of such services, and for content, application, service and device providers to develop, market, and maintain internet offerings as specified in F.C.C. 47 C.F.R. Part 8 §8.3. The Company furthermore will comply with all requirements set forth in the *2015 Open Internet Order*.

Demonstration of Ability to Function in Emergency Situations for Voice and Broadband

Chickamauga Telephone Corporation (“Company”) hereby certifies that it is able to function in emergency situations as set forth in 47 C.F.R. §54.202(a)(2)¹ and Chapter 515-12-1-.11(4) of the Rules of the Georgia Public Service Commission. Company’s network is designed to remain functional in emergency situations without an external power source, is able to reroute traffic around damaged facilities, and is capable of managing traffic spikes resulting from emergency situations as required by 47 C.F.R. §54.202(a)(2) and Chapter 515-12-1-.11(4) of the Rules of the Georgia Public Service Commission. Company can change call routing translations as needed to reroute traffic around damaged facilities. Changing call routing translations will also allow Company to manage traffic spikes throughout its network, as emergency situations require.

Specifically, each central office building is supplied with standby generators and battery back-up that enable the central office to keep running until power is restored so long as fuel is available, or until system changes are made to reroute traffic. Company has battery backup at all office locations and in its electronic equipment sites. Length of run time is determined by the equipment serving the area and the number of customers working out of the equipment. The company’s standby generators and battery back-up support both voice and broadband network equipment should an emergency situation occur.

¹ Section 54.202(a)(2) requires ETCs that are designated by the Commission to “demonstrate its ability to remain functional in emergency situations, including a demonstration that it has a reasonable amount of back-up power to ensure functionality without an external power source, is able to reroute traffic around damaged facilities, and is capable of managing traffic spikes resulting from emergency situations.”

D 13.1 Lifeline Assistance

A. General

1. Lifeline Assistance is a non-transferable retail service offering for which qualifying residential low-income subscribers pay reduced charges, as provided for below. Lifeline Assistance enables eligible subscribers to pay reduced charges for either voice telephony service (voice) or broadband internet access service (broadband) but not both.
2. Voice telephony service includes the following services: voice-grade access to the public switched network or its functional equivalent; local usage; access to emergency services; and toll limitation.
3. Broadband service includes the following: the capability to transmit data to and receive data from all or substantially all Internet endpoints, including any capabilities that are incidental to and enable the operation of the communications service, but excluding dial-up service.

Subscribers are eligible for Lifeline Assistance if:

1. The subscriber's household income is at or below 135 percent of the Federal Poverty Guidelines, or
2. The subscriber, or one or more of the subscriber's dependents or the subscriber's household, receives benefits from at least one of the following qualifying programs:

B. Regulations (Cont'd)

3. In addition to meeting the qualifications provided in paragraph 1. or 2. of this section, in order to constitute a qualifying low-income customer, a customer must not already be receiving a Lifeline service (voice or broadband from either a wireless provider or fixed provider), and there must not be anyone else in the subscriber's household subscribed to a Lifeline service (voice or broadband from either a wireless provider or fixed provider). Further, the customer must subscribe to broadband service that meets the minimum service standards set forth in section 54.408 of the FCC rules.
4. Until the National Lifeline Eligibility Verifier has been implemented in Georgia, each subscriber to Lifeline Assistance must certify in writing to the Company, under penalty of perjury, that s/he receives benefits under a program outlined in sub-paragraphs (B)(1) through (B)(3), above, and must, on that same document, agree to notify the Company if s/he ceases to participate in the program(s). The certification form shall conform to the requirements described herein, and shall be made available upon request to any subscriber. The Company shall retain all such subscriber certifications in order to furnish proof of subscriber eligibility as may be required from time to time by Universal Service administrators.
5. A subscriber may elect at the time of subscription to voice Lifeline Assistance to receive toll limitation as part of Lifeline Assistance. "Toll limitation" is a service that allows a subscriber to elect not to allow the completion of outgoing toll calls from the subscriber's residence.
6. Voice Lifeline Assistance will not be disconnected for non-payment of toll charges unless the Company offers toll limitation without charge.
7. The Company may not collect a service deposit in order to initiate voice-only Lifeline Assistance if the qualifying low-income subscriber voluntarily elects toll blocking from the Company, where available or if the qualifying low-income subscriber elects a calling plan that does not distinguish between toll and non-toll calls in its pricing. If toll blocking is unavailable, then the Company may charge a service deposit.
